

# **HECO-TOPIX®**

## ***Full threaded screws***

THE WOOD SCREW FOR THE PROFESSIONAL

**HECO-TOPIX® Full threaded screws**  
***for connections and reinforcements in structural timberwork***  
***with high demands***

- Countersunk head with milling grooves; no damage to the connector
- Perfectly coordinated HECO-Drive with positive fit
- Transfer of high tensile and compressive loads via the full thread
- Reduced edge and centre distances
- Approved and monitored product

**Countersunk head with milling grooves and HECO-Drive recess**

for flush countersinking of the head in timber and steel connectors

**Optimised full-threaded design up to the head**

for transmission of high tensile and compressive loads

**HECO-TOPIX®-tip with milling ribs**

reduces the risk of splitting the wood during insertion

**APPLICATION EXAMPLES**

*Rafter-purlin joints*

*Steel plate*

*Transmission of considerable compressive forces*

*Penetrations*

**RANGE**
