

introducing the new

timberfix

packaging range

Our timberfix range is evolving...

We recognise the importance of brand image, presentation and quality to all our customers.

As such all our key woodscrew products will now be sold under one brand 'timberfix'.

This will complement our highly successful timberfix 360 high performance screw and timberfix plus structural screw. The branded range will be rolled out during 2016.

Our timberfix brand will be known for the following ranges:

- 360 high performance screws
- Structural timber screw/landscaping screws
- Multi-Purpose screws
- Twin-threaded screws
- Decking screws

The new branding will bring stronger, better quality packaging and improved messaging of features and benefits.
